## Dear Friends,

These are truly unprecedented times—and unprecedented times call for proven, tested leadership. That's why, as the Utah co-chair for the Trump re-election campaign, I will continue to do everything in my power to ensure victory for the President and other Republican candidates this November.

President Trump was made for this moment. Having worked directly with him on historic tax reform and critical trade legislation, I am confident in his ability to jumpstart the economy and guide us through these perilous times. The pro-innovation policies President Trump implemented early in his tenure led to a period of rapid economic growth—and these same policies will lead to a period of rapid economic recovery. By fighting for the President's re-election, we can get our country back on the right track and secure our children's future.

Together, we will get through this and together, we will keep America great!

Sincerely,

A handwritten signature in blue ink that reads "Devin".

# WELCOME FROM THE CHAIR

Dear State Delegate,

Thank you for your willingness to serve as a delegate for the 2020 Utah Republican Party Nominating Convention!

This year, for the first time ever, our convention will take place online. As a state party, we have been working around the clock to ensure a smooth online transition, and to make sure you have all of the information you need to make informed voting decisions.

This 2020 Convention Voter Guide contains information about the candidates, the voting software to be used, and the voting methodology. You will see candidates running for federal office, statewide office, state house and senate seats, and even state school board. There are also candidates who are running to be national delegates to the Republican National Convention, as well as those running to be Utah's presidential electors.

This printed guide will function much like a candidate booth in a regular convention. In a traditional convention, candidates purchase a booth from the party, get to know voters in the process, and that purchase helps defray the party's convention costs. We have had many costs associated with preparing for an online convention, including the printing and mailing of this guide. For that reason, I am grateful to the many candidates who have purchased ad space.

I would also encourage you to go to the Utah Republican Party's website, [www.utgop.org](http://www.utgop.org). The party website will contain speeches by the candidates, and other information to help you get to know them and make informed decisions.

I trust that you will have an enjoyable and exciting convention experience, getting to know this amazing slate of Republican candidates. I am excited to see who you will choose to represent the Utah Republican Party in the general elections this November.

I am grateful for your service to our party, and want you to know that it is an honor to serve as your chair.

**Derek Brown**  
**Chairman, Utah Republican Party**

# RANKED-CHOICE VOTING FAQ

Under the rules of the Utah Republican Party, when three or more candidates run for any election, the party can either use multiple rounds of balloting to eliminate candidates, or use what is commonly called ranked-choice voting (“RCV”). In past conventions, the party has used both methods. Because we have several races with a very large number of candidates, and we are using an online voting system, RCV is the most practical approach this year. You will have the ability to utilize your smartphone or tablet when you vote, and easily rank candidates from your first preference to the last with the software.

## **What is Ranked-Choice Voting, or RCV?**

RCV allows a voter to rank multiple candidates in order of preference. Ballots are initially counted for each voter's top choice. If that choice is eliminated, the voter's second choice is counted and so on. Rankings are backup choices that never count against your top choice.

## **How does a candidate “win”?**

RCV works like an instant runoff election.

A candidate advances to the primary if they receive 60% or more of the delegates' votes, whether in the first round of voting or in any subsequent round. If there are only two candidates left, and neither receives at least 60% of the vote, they both proceed to a primary.

## **How does the vote counting work?**

If a candidate receives at least 60% of first choice rankings, then that candidate advances to the primary. If not, the instant runoff begins. The candidate with the fewest votes is eliminated, and the votes that were cast for that eliminated candidate are now counted in favor of the candidate ranked next on the ballot. This process repeats until either a candidate receives over 60% of the delegate votes and proceeds to the primary, or there are only two candidates left with neither receiving 60% of the delegate vote and both proceeding to the primary. With RCV, this entire process happens electronically and instantaneously, but otherwise is very similar to what happens when multiple round voting takes place in person.

**I only like one candidate. What should I do?**

You can certainly choose to only vote for one candidate, but you gain no advantage in doing so. If you only vote for one candidate and they are eliminated in a round of voting, and a subsequent round of voting takes place, it means that you have simply chosen not to cast a vote in that round.

**Do I have to rank every candidate?**

No. You can choose to not rank a candidate. However, not ranking other candidates does not give any extra “help” to your first choice.

**What if I select the same candidate for every choice? Does that increase the “value” of the vote I am casting for that candidate?**

No. It does not help a candidate if you only vote for them multiple times and no one else. If that particular candidate is eliminated after any round of voting, it simply means that you will not have a say in subsequent rounds.

**What if there is a tie vote?**

If the tie is between two last-place candidates, both candidates will be eliminated if their combined vote is less than the candidate with the next number of votes. Otherwise, ties are broken, per party rules, by a flip of a coin.

**MORE SOLUTIONS, LESS POLITICS.**

# *A message from* **MIKE LEE**

**Now more than ever**, it's essential that we nominate candidates who, when elected, will work tirelessly to restore, preserve, and protect the principles that have made our party—and indeed our republic—great. As Republicans, we are at our best when we are neither content with the status quo nor afraid to question the proposed expansion of government power. To that end, we should constantly ask ourselves (and each other) probing questions regarding the nature and proper role of government.

As I see it, government is best understood as an organized, official structure for the use of collective force. This overwhelming, potentially destructive power should be used cautiously and for defined, limited purposes closely connected to the defense of life, liberty, and property. Such power must be exercised at all times through the appropriate branch of government—with one branch making the law, another enforcing it, and yet another resolving disputes regarding its meaning. Of equal importance, government power must be wielded only at the appropriate level, with differences between state and federal authority remaining distinct and sacrosanct.

As you make your decisions at this historic convention, please take the time to research every candidate's position on basic issues regarding the role of government in general, the difference between state and federal power, and how each branch of government interacts with the other two. While once commonplace and expected in any election, these questions have sadly been neglected in recent decades—so much so that many candidates can't (or won't) identify any clear limits surrounding the office they seek.

In the Utah Republican Party, we know better. We can do better. And as we ask the right questions, we will do better, and lead our great country to a place where liberty and prosperity will once again be the norm. While asking the right questions won't always be easy or intuitive, finding answers should be. Your questions might differ from mine, but here are some of the questions I intend to ask:

1. *(for those running for governor, lieutenant governor, or state legislative office): Would you support legislation repealing SB 54, recognizing the right of political parties to determine the means by which they select and nominate candidates?*

2. *(for those running for governor, lieutenant governor, or state legislative office): Utah has long been applauded as the best-run state in the nation, but we still have plenty of problems. What are the top five changes you would make to state law?*

3. *(for those running for governor, lieutenant governor, or state legislative office): What would you change about our state's public education system? Would you support a voucher system? What support should the state provide to parents who homeschool their children, either in connection with COVID19 or otherwise?*

4. *(for those running for federal office): Please describe the difference between state power and federal power—identifying at least five areas in which the federal government is acting where it should not—and identify legislation you would support to return power to the states.*

5. *(for those running for federal office): Although the Constitution vests all federal lawmaking power with Congress, over time Congress has delegated much of that power to unelected, unaccountable bureaucrats. The resulting Byzantine labyrinth of federal regulations cost the American economy an estimated \$2 trillion each year, disproportionately harming America's poor and middle class. What would you do to return federal lawmaking power to the branch of government most accountable to the people at the most regular intervals?*

6. *(for all candidates): The federal government owns roughly 2/3 of the land in Utah. While essentially no one in Utah wants to disturb national parks, national recreation areas, wilderness areas designated by Congress, or military installations, most federal land in Utah doesn't fit into any of those categories, and keeping all of that land under federal control inflicts great harm on our state's economy, environment, tax base, affordable-housing market, and public education system. How much of Utah should the federal government own, and what changes to state and federal law would you support in this area?*

7. *(for all candidates): What is the purpose of government?*

8. *(for all candidates): Setting aside specific constitutional prohibitions, what are five things that no government, state or federal, should ever do?*

9. *(for all candidates): Should any person in Utah be denied equal protection under the law, based solely on whether the person in question has been born?*

10. *(for all candidates): Please identify five ways in which governments pick "winners and losers" in the economy, indicating whether you support or oppose each approach.*

11. *(for all candidates): Please explain why you are a Republican, what it means to be a conservative, and whether or to what extent the word "conservative" describes your approach to public policy.*

12. *(for all candidates): Do you support President Trump's re-election?*

I remain convinced that, although we face many new, unique, and vexing challenges, our best days remain yet ahead of us. Anxiously awaiting better times, we must do our part to make sure that our government facilitates (and does not impede) their arrival. We can. We must. And together, we will!

## ABOUT KATHLEEN

Kathleen Anderson is a Utahn stepping up to run for Congress. She believes Utah's 4th District deserves to be represented by a fellow citizen who shares Utah's values - not another career politician who places self above service. Kathleen has lived in Utah the past 35 years. She resides within the Utah 4th District boundaries. She learned the value of hard work at a young age helping her parents on their family farm. Upon graduating from high school, Kathleen enrolled at Brigham Young University. She graduated four years later with a degree in Political Science.

For almost the next decade, Kathleen worked in the property/casualty insurance industry before leaving the private sector to focus on raising her family. The wife of a 25-year veteran of the Air Force, and a mother of four, Kathleen maintained active involvement within the community through participation within the Utah Republican Party, as well as both the local and Utah PTA organizations.

## RACE OVERVIEW - UTAH'S 4TH CONGRESSIONAL DISTRICT

- ✓ In order to regain a GOP House majority, we must return Utah's 4th District to Republican hands this November. Throughout the U.S., UT-CD4 is listed as the #1 Congressional race to watch for this very reason.
- ✓ We lost this seat by less than 700 votes in 2018. With your help we will win it this year.
- ✓ In 2016, 62% of the votes cast in the presidential election were for a candidate the voters deemed to be conservative.
- ✓ Since his election, Ben McAdams has voted with Nancy Pelosi 89% of the time. This is not a voting record reflective of our district.
- ✓ It's time to elect a candidate who will work with our President, continue to put America First, and protect and defend our Constitution.

### UTAH CONGRESSIONAL DISTRICT 4

## KATHLEEN ON THE ISSUES

### STANDING WITH OUR PRESIDENT

I am **THE** candidate in this race who has supported President Trump from the very beginning. You can count on me to stand with our President in Congress and ensure that he has a true ally in Utah.

### AMERICA FIRST

I'm tired of career politicians putting themselves ahead of our country. I will always put America first in everything I do in Congress. Our country is the greatest in the world, and we owe it to future generations to Keep America Great.

### SECOND AMENDMENT

The Founders understood that the right to keep and bear arms is essential for a free society to remain a free society. You have my word that as your Representative in Congress I will never allow the Left to weaken our Second Amendment rights.

### IMMIGRATION

A country without secure borders is not a strong country. In addition to border security, we need productive legal immigration reform while holding accountable those who choose to break our laws.

### SOCIALISM

The Left is waging the greatest assault on capitalism, personal responsibility, and liberty that we've seen in decades. Socialism has been completely disproven as a system of government. I will lead the charge to defend the ideas and principles that have made us the most prosperous country in history. Capitalism has lifted more people out of poverty than any other system that's been tried.

### HEALTHCARE

Obamacare continues to fail America. Healthcare remains too expensive, and while we have President Trump to thank for eliminating the unconstitutional individual mandate, we still have work to do to increase choice, reduce costly

regulations, make prescription medication more affordable for Americans, and lower expenses for working families and businesses.

### PROTECTING LIFE

Without the right to life, none of our other rights can be enjoyed. In Congress I will stand up for the unborn and be an advocate to protect the most vulnerable among us.

### THE ECONOMY

President Trump's leadership has given us the strongest economy in American history, with record low unemployment, rising wages, and a roaring stock market. Yet the Left seems intent on destroying that progress and sending us back into recession with their big government policies. I will be a voice in Congress against failed socialist ideas and defend the proven free market principles America was built on.

"FRUGAL"  
DOUGALL**

**LT. GOVERNOR**

## STOP UTAH FROM BECOMING CALIFORNIA!

**The ONLY team in this race with top to bottom  
PROVEN CONSERVATIVES on the ticket**

By the time our next governor takes office, Utah will be in the throes of an economic recovery. The need for true fiscal conservative leadership and solid budget experience has never been greater. The Winder Newton / Dougall team are the only two in this race with a record of scrutinizing budgets to foster job growth. Their conservative leadership is exactly what is needed to lead Utah out of these uncertain economic times.

**Aimee Winder Newton is the candidate** with the most local government experience - serving in city, county and school districts over the past 25 years. She currently serves on the Salt Lake County Council where she oversees the state's second-largest budget and is often referred to as a "Budget Hawk." She is a small business owner and mom of four.

**State Auditor John 'Frugal' Dougall** has spent years challenging bloated governments and has an impressive record holding government accountable as "Utah's Watchdog." Both as State Auditor and previously as State Representative, Dougall has pushed back against special interests and helped drive the legislative budget process.

## Fighting For Utah, Fighting For You

I am running for re-election to continue to fight for you and Utah. I need your support to build the momentum on the issues you care about.

We are gaining ground in these battles!

### National Debt

I have spent 7 years in Congress fighting against deficit spending and the power of the federal government. Those of us actually in this fight understand that solving generations of overspending takes enormous effort and more expertise than just a political soundbite. I am a recognized expert in conservative fiscal policy:

- The **only** republican in Congress on both **Budget** and **Appropriations** Committees
- I have earned the **trust and confidence of President Trump** and Congressional leadership
- No other member of Congress is in a better position to affect fiscal policy

### Fighting The Tough Fights

Just a few of the other significant issues I have fought head-on in congress include:

- Founded the caucus against socialism. **America will never be a socialist country!**
- Rebuilding our military and decreasing discretionary spending
- Passed a bi-partisan suicide prevention bill addressing the dramatic rise in suicide throughout Utah and our nation
- Introduced legislation **protecting religious freedom**
- Introduced legislation to protect children from being targeted by the tobacco and vaping industry
- Fought for better management of federal lands

### National Security

Just as I defended our country as a bomber pilot in the Air Force, I continue to defend our security and our American values in congress:

- Subcommittee Ranking Member on the powerful **House Permanent Select Committee on Intelligence**
- Passed FISA reform- fundamentally changing intelligence processes and **protecting personal liberty**
- Holding accountable Intelligence chiefs who politicized their office against Trump

*I fought for this country before,  
I continue to fight for you now!*

— Rep. Chris Stewart

**I ask for your support to guarantee that your conservative Utah values will be well represented by a respected leader in Washington.**

## UT State School Board - Dist. 12

My wife and I are the parents of seven children who have all attended public schools. I hold a BS in Business/Finance and an MBA from BYU. I have worked in the computer industry for 25 years, and I am an active member of the public school community, SCC, and PTSA.

I believe in and support:

- Financial responsibility, school choice and flexibility
- Local control of our schools with appropriate support from the state to provide our schools, families, and children:
  - Talented and high-quality educators and administrators
  - Safe Schools (Physical Safety, Privacy, Social & Emotional Health)
  - Early Learning
  - Personalized Learning - Each child learning to their full potential

Schools can play an important role with families in helping students prepare for their future, so I support access to technology and training in real-world skills, including career-specific training.

I believe in the value of quality teaching and administration in improving student success. I support professional development, mentoring programs, new teacher support, and in hiring and keeping amazing teachers!

# MY STAND FOR NORTHERN UTAH

## PRESERVING FREEDOM

**IMMIGRATION:** The solution is simple. The Will to Fix Our Broken Borders, Build The Wall, forge the Way forward to a sensible immigration system.

**PRO-LIFE:** We need to protect the unborn, the most vulnerable among us, and end the frightening practice of Human Trafficking.

**PRO-GUN:** The 2nd Amendment is Under Attack. I will stand up for our Right to Keep and Bear Arms and oppose all so-called Red Flag Laws.

**RELIGIOUS FREEDOM:** You have every right to worship the way you see fit. In Congress, I will oppose all efforts to take away our religious liberties.

## EXPANDING OPPORTUNITY

**TAXES:** According to the Americans for Tax Reform, I am the ONLY candidate to sign the Taxpayer Protection Pledge opposing tax increases.

**JOBS & THE ECONOMY:** We've recently taken a hit and we need to give our job creators the ability to succeed by continuing to slash job-killing regulations and help those displaced by COVID-19 quickly.

**HEALTHCARE:** By expanding technology, super fast internet, and increasing competition in the healthcare sector, we can ensure everyone has access to healthcare at lower costs.

**EDUCATION:** Parents, Students, and Educators should have control of their educational future. With more educational options and advances in technology, all of our kids will have access to world-class education.

## REIGNITING PATRIOTISM

**DEFEATING SOCIALISM:** The leftward lurch of Washington is frightening. I will stand up to AOC and her "Squad" to Keep America Great!

**MILITARY AND VETERANS:** Our veterans and active duty military keep our nation safe and strong. Hill AFB is a vital part of our economy and our National Security. In Congress, I will strengthen Hill and have our veterans' backs.

**COMING TOGETHER TO DEFEAT CORONAVIRUS:** In this extraordinary time, the greatness of Utahns and Americans are shining through. Neighbors helping neighbors is what Reigniting Patriotism is all about!

**CONFRONTING CHINA:** China is a great threat to our Nation. We need to level the playing field to expand our exports for our agriculture sector in particular and stop China's cheating and dangerous practices.

Utah voters are disgusted more than ever in a U.S. Congress that's been dysfunctional for decades. With gridlock on COVID-19 relief, the impeachment circus, and an ever-increasing deficit and debt, Americans demand change.

### DELEGATES:

We need Utah state legislators who will support term limits on Congress by way of an Article V convention. It is the constitutional obligation of the States to control a runaway Congress. All commissions under the former authority [Great Britain] being annulled, town committees had a discretionary power to preserve domestic peace. ## **LORRI-SUE BLUNT | STATE SCHOOL BOARD DISTRICT 12**

Every student is individual and should pursue an individual path to achieve their life goals. A great education doesn't push toward a predetermined outcome, but it provides information by teaching reading comprehension and math coupled with critical thinking skills so that a student can learn anything he or she desires. In addition to preparing college-bound students for the rigor of college, there has never been a better moment to reintroduce trade electives (CTE) and create passionate learners through technology for those who choose to pursue a non-college track; the timing is perfect as Utah's flourishing tech market demands more skilled personnel and Utah competes in an increasingly competitive world.
