

## Spencer Cox thinks we are stupid.

Phil Lyman won the 2024 UTGOP Convention as governor nominee by 67%. In April, conventional media polls showed Phil 40 points down from Cox. Up to the Primary, polls showed Phil down by 20 points. Phil narrowed that gap to less than 10 points in the June Primary. Had 1100 or so voters in southern Utah not had been disenfranchised due to their ballots being routed to Las Vegas for a postmark, who knows? The gap might have been narrowed further.

**Signature Gathering (SB54).** Recall that there is an ongoing criminal investigation from signature gathering for the special CD2 race in 2023, namely, fraud, forgery, and improperly collecting signatures. Spencer Cox and other candidates used the same signature gathering company.

Phil Lyman and others stated on June 13 on X that he and the others were increasingly concerned about the process after GRAMA requests (Utah's FOIA) for signatures in a Washington County senate race were rejected.

**We are not even certain that Spencer Cox is a legitimate gubernatorial candidate.**

**Misapplication of SB54 by the GOP.** Some in the GOP party are arguing that there are inconsistencies in the laws, that the GOP is not applying SB54 correctly, and that **convention winners** should proceed to the General Election without having to go through Primary.

An August poll has Phil as a write-in doing significantly better now relative to Cox than in April. He is also ahead of Democrat candidate Brian King. All of a sudden, two other people named Lyman magically filed as write-in candidates for the governor race – Richard Lyman and Carol Lyman for Governor and Lt Governor.

**Don't fall for this slick trick.**

Use dark blue or black ball point pen.  
NO SHARPIES. Fill in the oval.

Print both Governor and Lt Governor names FULLY in the write-in space provided.

Look at the picture of the ballot above showing the Governor and Lt Governor race. Space is provided to WRITE IN names for a Governor and a Lieutenant Governor.

**Please print PHIL LYMAN NATALIE CLAWSON fully.** It will not only make the ballot adjudicators' jobs easier but it will also make our jobs easier as poll watchers!

**WHY?** At the county Election Center, any paper ballot with a WRITE IN automatically goes to human adjudication. Your ballot is displayed on their computer screen, and it is also displayed on a large screen so poll watchers can see. The adjudicators click on the WRITE IN menu to compare what you wrote on your ballot with what is in the menu. When they recognize your choice, they select it in the menu and complete adjudication of your ballot. If they do NOT recognize your choice, they REJECT it and select a reason from the REJECTION REASON menu.

We don't know WHAT can happen to the ballot between now and the election, but you can't go wrong with these instructions.

**Vote for the REAL Deal Phil !**

If you want a chance to get rid of the corruptible effects of candidates buying their way onto our ballot by paying for signatures (SB54), and if you want TRANSPARENCY in our government, WRITE IN **Phil Lyman and Natalie Clawson** for Governor and Lieutenant Governor.

Please accept this golf pencil as a souvenir of our fight to bring transparency to Utah and your participation in that fight. But use a **black** or **dark blue** ball point pen on your ballot. Do NOT use a Sharpie. If you vote by paper ballot instead of machine, poll watchers might have a chance to see your ballot properly adjudicated.

Due to US mail delays, the ballots of over 1100 southern Utah voters were not counted during the Primary. Instead of mailing back your ballot, we suggest turning your signed and sealed ballot in directly at the County Clerk's office, putting it in your nearest drop box, or turning it in to an election worker at your nearest Election Day Voting Center.
