STAGGS
U.S. SENATE

CONTRACT WITH UTAH

In an effort to eliminate any possibility of corruption within the halls of Congress, and restore fiscal order to our nation, I pledge to Utah to support the following efforts:

1. Ban the trading of individual stocks by members of Congress and their immediate family members.
2. Ban lobbyist donations to candidates and members of Congress.
3. Ban members of Congress and high ranking federal government officials from lobbying or obtaining government contracts for at least ten (10) years after leaving their congressional office or governmental post.
4. Limit members of the senate to two (2) terms and members of the house to three (3) terms.
5. Assure that if the government shuts down, members of Congress receive no pay and are ineligible for backpay.
6. Return to a regular appropriations process and oppose all omnibus spending bills.
7. Pass a balanced budget amendment.

I am asking for all in Utah's Senate race to join me in this commitment to the great people of Utah.

Candidate for U.S. Senate

TRENTSTAGGS.COM

PAID FOR BY TRENT STAGGS FOR UTAH

Refused to pay signature gatherers to get around the scrutiny of convention delegates and get on the primary ballot no matter what.

Not beholden to big developers and other big \$\$\$ interests.

Utah GOP convention nominee.

Political and private business experience.

Committed to bringing about:
smaller government,
safer families,
stronger economy.

TRENT ADVOCATES FOR

Smaller Government

The federal government consumes 25% + of the average American's income. We have lost sight of the freedoms our founders envisioned.

The less Washington can control its budget, the more it wants to control your life.

We need to kick DC out of 2/3rds of Utah.

Safer Families

Our schools are supposed to educate. Not indoctrinate.

As Senator, I will fight for your ability to defend yourself and your family. With crime running amok, the second Amendment is more important than ever.

Stronger Economy

National Security is a primary obligation of our federal government.

As your Senator, I will fight for America's and Utah's energy independence.

The priority of America must be defending America. We cannot afford to maintain 750 military bases around the world.
